Darwin The Modern World View:

Darwin and the Modern World View John C. Greene, 1973-02-01 One of the nation's foremost scholars in the history of ideas explores the impact of Darwin's evolutionary biology on the religious and intellectual thought of the past century

Historical Teleologies in the Modern World Henning Trüper, Dipesh Chakrabarty, Sanjay Subrahmanyam, 2015-09-24 Historical Teleologies in the Modern World tracks the fragmentation and proliferation of teleological understandings of history the notion that history had to be explained as a goal directed process in Europe and beyond throughout the 19th and into the 20th century Historical teleologies have profoundly informed a variety of other disciplines including modern philosophy natural history literature humanitarian and religious philanthropism the political thought and practice of revolution emancipation imperialism colonialism and anti colonialism the conceptualization of universal humankind and the understanding of modernity in general By exploring the extension and plurality of historical teleology the essays in this volume revise the history of historicity in the modern period Historical Teleologies in the Modern World casts doubt on the idea that a single if powerful conception of time could function as the unifying principle of all modern historicity instead pursuing an investigation of the plurality of modern historicities and its underlying structures By bringing together Western and non Western histories this book provides the first extended treatment of the idea of historical teleology It will be of great value to students and scholars of modern global and intellectual history

The Rise and Fall of Christian Civilization in the Modern World Stephen Strehle, 2025-11-19 In this compelling narrative discover how Christianity particularly through Puritanism shaped the foundations of modern Western democracy only to see its influence dramatically transformed by the forces of secularization This accessible yet profound work The Rise and Fall of Christian Civilization in the Modern World traces two pivotal movements that defined our modern world the rise of Puritan ideals that birthed concepts of liberty equality and democracy and the subsequent emergence of secular society that challenged religious authority From the democratic principles of early Puritan churches to the development of social contract theory from revolutionary movements to the rise of the secular state this book illuminates how religious and anti religious forces shaped our current cultural landscape The author masterfully weaves together historical events theological developments and philosophical shifts that transformed Western civilization from the Protestant Reformation to the French Revolution from the Enlightenment to the modern entertainment industry Essential reading for anyone seeking to understand How Puritan ideals shaped modern democratic principles The historical roots of church state separation Why and how secular institutions emerged The complex relationship between religion and modern society Written in clear engaging prose and organized in concise chapters perfect for discussion groups and classrooms this work offers both general readers and scholars a comprehensive understanding of how Christianity's cultural influence evolved from a dominant force to one voice among many in our contemporary pluralistic society More than a historical account it provides crucial insights into the ongoing dialogue between faith and secularism in
