Das Dichterische Werk:

An Introduction to Jacob Boehme Ariel Hessayon, Sarah Apetrei, 2013-08-29 This volume brings together for the first time some of the world's leading authorities on the German mystic Jacob Boehme to illuminate his thought and its reception over four centuries for the benefit of students and advanced scholars alike Boehme's theosophical works have influenced Western culture in profound ways since their dissemination in the early 17th Century and these interdisciplinary essays trace the social and cultural networks as well as the intellectual pathways involved in Boehme's enduring impact The chapters range from situating Boehme in the 16th Century Radical Reformation to discussions of his significance in modern theology They explore the major contexts for Boehme's reception including the Pietist movement Russian religious thought and Western esotericism as well as focusing more closely on important readers the religious radicals of the English Civil Wars and the later English Behmenists literary figures such as Goethe and Blake and great philosophers of the modern age among them Schelling and Hegel Together the chapters illustrate the depth and variety of Boehme's influence and a concluding chapter addresses directly an underlying theme of the volume asking why Boehme matters today and how readers in the present might be enriched by a fresh engagement with his apparently opaque and complex writings

Monatsschrift Für Das Deutsche Geistesleben, 1909 **Language and Beyond / Le langage et ses au-delà**, 1998-01-01 The title of this book *Language and Beyond* suggests a dynamic relationship between two poles in which language is confronted with an otherness that is apparently fundamental to it and towards which it is seen to be reaching But what is the beyond of language Is it an object or an image Do images visual or aural actually constitute a beyond of language The interdependence of words might appear to perpetuate an absence instead and yet signs can also be seen to establish a presence by their very materiality The articles in this collection investigate and therefore postulate some form of dialogue between word and image but they also test semiotic borders examining the various shades of the interdependence conflict or dominance and the orientation of the relationship Ce livre s'adresse aux spécialistes chercheurs et étudiants ainsi qu'un public plus large aux lecteurs ouverts aux théories méthodes et pratiques de la recherche interdisciplinaire Son titre suggère un rapport dynamique entre le langage et ses au-delà une bipolarité tour à tour assumée et transgressée voire interriorisée Mais quels sont ces au-delà Et comment les objets images sons ou représentations mentales sont-ils investis ou re-investis par le langage Dès lors que la nature séquentielle de ce dernier semble souligner le caractère dérivé et marginal de ses au-delà il suffit au contraire de la matérialité même des signes pour les projeter au cœur de l'expression verbale Les articles de ce recueil postulent un dialogue entre le mot et l'image mais scrutent galement les confins des systèmes de signes les modes et degrés de leurs interdépendances et de leurs oppositions

Screening Art Seán Allan, 2019-02-18 With internationalist aspirations and wide-ranging historical perspectives East German films about artists and their work became hotly contested spaces in which filmmakers could look beyond the GDR and debate the impact of contemporary cultural policy on the reception of their pre-war cultural heritage

Spanning newsreels documentaries and feature films *Screening Art* is the first full length investigation into a genre that has been largely overlooked in studies of DEFA the state owned Eastern German film studio As it shows artist films played an essential role in the development of new paradigms of socialist art in postwar Europe Albert Steffen. *Das dichterische Werk in seiner Entfaltung*. [Selections and extracts from writings by and about A. Steffen.
