Dunkirk Anatomy Of Disaster:

Dunkirk, Anatomy of Disaster Patrick Turnbull, 1978 The author takes a professional military historian's view of the ten months from the declaration of war to what he considers to be the defeat of Dunkirk It is enhanced by the poignant memories of day to day sufferings endured by the men involved as well the courage and despair shown His account of those months does not make for comfortable history but it does shed a sane light on what has become folk mythology *British Army Communications in the Second World War* Simon Godfrey, 2013-07-04 A history of British Army front line communications focussing on the effect that their performance had on the outcome of main World War II campaigns

Battling With the Truth Ian Garden, 2016-07-04 Think of the press as a great keyboard on which the government can play Joseph Goebbels Reich Minister of Public Enlightenment and Propaganda Dunkirk Stalingrad the Dieppe Raid there were many bloody and gruesome conflicts fought during the Second World War yet there was one vital and aggressive battle in which no blood was directly shed that of the warring nations battle with the truth In *Battling With the Truth* a follow up to *The Third Reich's Celluloid War* Ian Garden offers fascinating insights into the ways by which both the Axis and Allies manipulated military and political facts for their own ends By analysing key incidents and contemporary sources from both British and German perspectives he reveals how essential information was concealed from the public Asking how both sides could have believed they were fighting a just war Garden exposes the extent to which their peoples were told downright lies or fed very carefully worded versions of the truth Often these versions gave completely false impressions of the success or failure of missions even whole campaigns Ultimately *Battling With the Truth* demonstrates that almost nothing about war is as clear cut as the reporting at the time makes out From the past we can learn valuable lessons about the continuing potential for media manipulation and political misinformation especially during wartime
