Albrecht Dürer and the Epistolary Mode of Address Shira Brisman, 2017-01-20 Art historians have long looked to letters to secure biographical details clarify relationships between artists and patrons and present artists as modern self aware individuals This book takes a novel approach focusing on Albrecht D rer Shira Brisman is the first to argue that the experience of writing sending and receiving letters shaped how he treated the work of art as an agent for communication In the early modern period before the establishment of a reliable postal system letters faced risks of interception and delay During the Reformation the printing press threatened to expose intimate exchanges and blur the line between public and private life Exploring the complex travel patterns of sixteenth century missives Brisman explains how these issues of sending and receiving informed D rer s artistic practices His success she contends was due in large part to his development of pictorial strategies an epistolary mode of address marked by a direct intimate appeal to the viewer an appeal that also acknowledged the distance and delay that defers the message before it can reach its recipient As images often in the form of prints coursed

through an open market and artists lost direct control over the sale and reception of their work Germany's chief printmaker navigated the new terrain by creating in his images a balance between legibility and concealment intimacy and public address
