Dutch Calvinism in Modern America James D. Bratt, 2002-12-30 In this scholarly yet entertaining book James D Bratt takes a look at the Dutch in America from the late 19th century to the present A comprehensive study of an ethnic subculture the book is in large part a study of the group's religious history as well since as Bratt points out the contours of the Dutch presence in America have been overwhelmingly shaped by the church and its subsidiary organizations Although the book is extensively and scrupulously documented Bratt has infused his scholarship with a considerable amount of anecdote that is by turns poignant and tragic and hilarious In Bratt's analysis of the fitful progress of Americanization that this close knit religious community has undergone we are treated to the sharp insights of a bemused and sometimes disaffected insider Included is a chapter on novelists Arnold Mulder David Cornel DeJong Frederick Manfred and Peter DeVries four sons of the Dutch who fled the subculture only to reflect upon it almost obsessively from the outside Well written scholarly and highly readable *Dutch Calvinism in Modern America* will have wide appeal among both academic and general readers

Shades of White Flight Mark T. Mulder, 2015-03-12 Since World War II historians have analyzed a phenomenon of white flight plaguing the urban areas of the northern United States One of the most interesting cases of white flight occurred in the Chicago neighborhoods of Englewood and Roseland where seven entire church congregations from one denomination the Christian Reformed Church left the city in the 1960s and 1970s and relocated their churches to nearby suburbs In *Shades of White Flight* sociologist Mark T Mulder investigates the migration of these Chicago church members revealing how these churches not only failed to inhibit white flight but actually facilitated the congregations departure Using a wealth of both archival and interview data Mulder sheds light on the forces that shaped these midwestern

neighborhoods and shows that surprisingly evangelical religion fostered both segregation as well as the decline of urban stability. Indeed the Roseland and Englewood stories show how religion often used to foster community and social connectedness can sometimes help to disintegrate neighborhoods. Mulder describes how the Dutch CRC formed an insular social circle that focused on the local church and Christian school instead of the local park or square or market as the center point of the community. Rather than embrace the larger community the CRC subculture sheltered themselves and their families within these two places. Thus it became relatively easy when black families moved into the neighborhood to sell the church and school and relocate in the suburbs. This is especially true because in these congregations authority rested at the local church level and in fact they owned the buildings themselves. Revealing how a dominant form of evangelical church polity congregationalism functioned within the larger phenomenon of white flight. *Shades of White Flight* lends new insights into the role of religion and how it can affect social change not always for the better. *Dutch American Voices* Herbert J. Brinks, 1995. This volume offers a rich sampling of correspondence from the Dutch Immigrant Letter Collection at Calvin College. Sent from immigrants to friends and family in the Netherlands the letters describe the writers new lives and the daily experiences of becoming American. *Dutch American Voices* is a wonderful scrapbook that should be a part of every library in the Midwest and every home of those Americans of Dutch ancestry. Brinks should be commended not only for this volume but also for a lifetime of collecting and preserving this precious legacy in the Dutch Immigrant Letter Collection at Calvin College. His work is a labor of love as well as a service to scholarship. *Michigan History Magazine* [Immigration and American History](#) University of Minnesota, Henry Steele Commager, 1961.
