Transcultural Modernities Elisabeth Bekers,Sissy Helff,Daniela Merolla,2009 The swelling flows of migration from Africa towards Europe have aroused interest not only in the socio political consequences of the migrants insistent appeals to fortress Europe but also in the artistic integration of African migrants into the cultural world of Europe While in recent years the creative output of Africans living in Europe has received attention from the media and in academia little critical consideration has been given to African migrants modes of narration and the manner in which these modes give expression to or are an expression of their creators transcultural realities Transcultural Modernities Narrating Africa in Europe responds to this need for reflection by examining the manner in which migrants compose and negotiate their Euro African affiliations in their narratives The book brings together scholars in the fields of literary and art criticism cultural studies and anthropology for an extensive interdisciplinary exchange on the specific modes of narration displayed in Euro African literatures the visual arts and cinema as well as offering ethnographic case studies The result is a wide range of reflections on how African artists writers and ordinary people living in Europe experience and explore their transcultural and or postcolonial environments and how their experiences and explorations in turn contribute to the construction of modern Euro African life worlds Dutch, the Language of Twenty Million Dutch and Flemish People Omer Vandeputte,1981 Dutch: An Essential Grammar William Z. of international travel and migration the book accounts for the shifting contemporary studies to the workings of language choices in places where people with many different backgrounds meet and exchange ideas It specifically addresses how people handle language use challenges in a broad range of settings to present themselves positively and meet their information and identity goals While a speaker's experience runs like a thread through this volume the linguistic cultural and situational focus is as broad as possible It runs from the language choices of Chinese immigrants to Beijing and Finnish immigrants to Japan to the use of the local lingua franca by motor taxi drivers in Ngaound r Cameroon and how Hungarian students in their dorm rooms express views on political correctness uninhibitedly As it turns out language play improvisation humour lies as well as highly marked subconscious pronunciation choices are natural parts of the discourses and this volume provides numerous and extensive examples of these techniques For each of the settings discussed the perspective is taken of personalised linguistic and extra linguistic styles in tackling communicative challenges This way a picture is drawn of how postmodern individuals in extremely different cultural and situational circumstances turn out to have strikingly similar human behaviours and intentions Linguistic Choices in the Contemporary City is of interest to all those who follow theoretical and methodological developments in this field It will be of use for upper level students in the fields of Sociolinguistics Pragmatics Linguistic Anthropology and related fields in which urban communicative settings are the focus

Dutch: A Linguistic History of Holland and Belgium Bruce C. Donaldson, 1983-12-05 Historical Dictionary of the Netherlands Joop W. Koopmans, Arend H. Huussen Jr., 2007-05-22 The Netherlands frequently but erroneously called Holland is one of the most densely populated countries in the world In the past few decades it has been undergoing many transformations made possible by its dynamic and fast moving political landscape It has shifted from fierce nationalism toward a self image of tolerance and permissiveness the national identity and self consciousness has slowly eroded through decolonization and immigration Unfortunately several murders of prominent controversial politicians have started yet another shift away from tolerance and economic stagnation has bred pessimism Nonetheless despite many trials and tribulations there has been real progress and the Dutch have perhaps done a better job of coming to terms with their limitations than many others in the world The second edition of the Historical Dictionary of the Netherlands contains more than 700 cross referenced dictionary entries on individual topics spanning the Netherlands political economic and social system along with short biographies on important figures who have shaped the Netherlands history Supplementing the entries are a list of acronyms and abbreviations a chronology an introduction appendixes and a bibliography making this a superb quick reference on the Netherlands **Dutch Linguistics at Berkeley** Jeanne Van Oosten, Johan P. Snapper, 1986

Globally Speaking Judith Rosenhouse, Rotem Kowner, 2008-05-22 This volume accounts for the motives for contemporary lexical borrowing from English using a comparative approach and a broad cross cultural perspective It investigates the processes involved in the penetration of English vocabulary into new environments and the extent of their

integration into twelve languages representing several language families including Icelandic Dutch French Russian Hungarian Hebrew Arabic Amharic Persian Japanese Taiwan Chinese and several languages spoken in southern India Some of these languages are studied here in the context of borrowing for the first time ever All in all this volume suggests that the English lexical invasion as it is often referred to is a natural and inevitable process It is driven by psycholinguistic sociolinguistic and socio historical factors of which the primary determinants of variability are associated with ethnic and linguistic diversity
