novel *The Dwelling Place of Light* focuses on labour unrest in a mill town in Massachusetts. The book's portrayal of the mill's subpar working conditions and the violent nature of the workers' rage is startlingly accurate. Churchill also had a keen eye for home affairs as seen by his insightful portrayals of love and marriage. Churchill was born in St. Louis, Missouri, and attended Smith Academy in Missouri and the United States Naval Academy where he graduated in 1894. He joined the *American Navy Journal* as an editor after graduating. In order to pursue a writing career, he left the American Navy. He was appointed managing editor of the *Cosmopolitan Magazine* in 1895 but he left that position in less than a year to devote more time to writing. He was a published poet and essayist in addition to being a famous author. Some of his famous works include *The Celebrity* (1898), *Richard Carvel* (1899), *The Crisis* (1901), *Coniston* (1906), *Mr. Crewe's Career* (1908), *A Modern Chronicle* (1910), *The Inside of the Cup* (1913), *A Far Country* (1915), and *The Dwelling Place of Light* (1917). **The Dwelling-Place of Light**

**Winston Churchill** *Winston Churchill*, 2018-08-06 *The Dwelling Place of Light* is a 1917 best-selling novel by American writer Winston Churchill, the last of his twenty-year run of best-sellers. Like *The Inside of the Cup* and *A Far Country*, the title has a Biblical allusion. Where is the way to the dwelling of light? Published in October 1917, it did not achieve as many sales as his prior novels. It was also adapted into a silent film in 1920, directed by Jack Conway and starring Claire Adams, Nigel De Brulier, and King Baggot. **The Dwelling Place of Light, Complete** *Winston S. Churchill*, 2014-06-04 *Women and Work* Christine Leiren Mower, Susanne Weil, 2010-08-11 While issues surrounding women and work may be more subtle today than in the past, problems of workplace equity, child rearing, and domestic labor pose problems of balance that continue to evade solution as women today face substantial shifts in the meanings and practices of marriage, work, and reproduction amid a globalized economy. The essays in *Women and Work: The Labors of Self-Fashioning* explore how nineteenth and twentieth-century US and British writers represent the work of being women where work is defined broadly to encompass not only paid labor inside and outside the home but also the work of performing femininity and domesticity. How did nineteenth and twentieth-century US and British writers revise then-contemporary social assumptions about who should be performing work and for what purpose? How fully did these writers perceive the class implications of their arguments for taking jobs outside the home? How does work both inside and outside the home contribute to female identity and conversely, how does it promote what legal theorist Kenji Yoshino terms the demands of covering women's strategic use of stereotypes of femininity and masculinity to succeed in the marketplace? In articles appropriate for both upper-level undergraduate and graduate students in literature and literary history, women's studies, feminist and gender studies, contributors engage these questions covering both canonical and popular, middlebrow, nineteenth and twentieth-century writers such as Gilman, Cather, Alcott, Schreiner, Wharton, Le Sueur, Gissing, Wood, Lewis, and Mitchell. *Women and Work* will also interest scholars concerned with this developing discourse. *OLR Index*, 1916 *The Dwelling Place of Light - Volume 2* *Churchill, Winston*, 2016-06-21 Unlike some other reproductions of classic texts, 1. *Cultural Production and the Politics of Women's Work in American Literature and Film* Polina Kroik, 2019-01-21

*Cultural Production and the Politics of Women's Work in American Literature and Film* emphasizes the interrelation among women's workplace roles modes of authorship and processes of subject formation pointing to some of the reasons for the persistence of limiting gender roles and occupational hierarchies that arose during the first 60 years of the 20th century The book interrogates three common narratives The rise of Fordism as a masculine mode of production and the transition to an era of feminized work women's liberation through the sexual revolutions and the rise of a new form of literary authorship Conversely it suggests that women's labor was integral to the operations of the Fordist business sphere where unlike at the factory the white collar office proletarian work was casualized and feminized This book argues that this workplace was an important site of subject formation affirming dominant ideologies through economic practices Analyzing work by Sinclair Lewis Nella Larsen Anita Loos and Sylvia Plath the book presents an alternative history of American modernism one that is more attuned to gendered discourses of labor and class By looking at the micropolitics of power within cultural institutions this study moves beyond the dichotomies of exclusion inclusion to interrogate the terms on which women and minorities worked as producers and the ideas and experiences that consequently entered the field of intelligibility
