### **Customized Art Inspired By Hot Rods:**

*Customized* C. Brenda Jo, Chavoya Bright, 2000-10-01 Sleek and slick and fast hot rods with their souped up engines and coolly restyled chassis have fired the imaginations of the youth who customize and drive them and the artists who glorify them Fantastically painted cars as well as photographs and art works in other mediums inspired by America's love affair with custom cars are the subject of this exciting new book created to accompany an exhibition at Boston's Institute of Contemporary Art Ed Big Daddy Roth Von Dutch Robert Williams Richard Prince and Ruben Ortiz Torres are among the contemporary artists who embrace hot rods not just as a means of transportation but also as shrines to a way of life Challenging the stereotype that American car culture is the exclusive domain of white males curator Nora Donnelly highlights the work of women artists Sylvie Fleury and Fiona Banner and the predominantly Latino low riders With its fabulous images and lively design here is a book with all the sexy panache of its subject *Lowriders in Chicano Culture* Charles M. Tatum, 2011-07-22 This informed and accessible book captures the art energy passion and pageantry of over 60 years of lowrider culture an absolutely iconic Chicano and American phenomenon Much like rap music and ethnic foods Chicano lowrider culture has become sufficiently widespread in recent decades to almost be considered mainstream However those outside of lowriding may not realize that this cultural phenomenon is not the result of a recent fad it originated in the pre World War II era and has continued to grow and evolve since then *Lowriders in Chicano Culture From Low to Slow to Show* allows readers to see how this expressive culture fits within the broader context of Chicano culture and understand how lowriding reflects the social artistic and political dimensions of America's fastest growing ethnic group It includes chapters that explain the culture of pachucas/os and cholas/os the unique aesthetics of lowrider vehicles lowrider music shows and clubs the mechanics of building a lowrider vehicle and lowrider culture in the media including film newspapers and television The book also traces how lowrider culture has recently expanded beyond the urban streets and into the massive exhibit halls of lowrider shows exposing lowrider culture to even more enthusiasts **Misplaced Objects** Silvia Spitta, 2009-07-01 When things move things change Starting from this deceptively simple premise Silvia Spitta opens a fascinating window onto the profound displacements and transformations that have occurred over the six centuries since material objects and human subjects began circulating between Europe and the Americas This extended reflection on the dynamics of misplacement starts with the European practice of collecting objects from the Americas into Wunderkammern literally cabinets of wonders Stripped of all identifying contexts these exuberant collections including the famous Real Gabinete de Historia Natural de Madrid upset European certainties forcing a reorganization of knowledge that gave rise to scientific inquiry and to the epistemological shift we call modernity In contrast cults such as that of the Virgin of Guadalupe arose out of the reverse migration from Europe to the Americas The ultimate marker of mestizo identity in Mexico the Virgin of Guadalupe is now fast crossing the U S Mexico border and miracles are increasingly being reported *Misplaced Objects*

then concludes with the more intimate and familial collections and recollections of Cuban and Mexican American artists and writers that are contributing to the Latinization of the United States Beautifully illustrated and radically interdisciplinary *Misplaced Objects* clearly demonstrates that it is not the awed viewer but rather the misplaced object itself that unsettles our certainties allowing new meanings to emerge

**Foul Perfection** Mike Kelley, 2003-06-20 Critical writings and commentary by the Los Angeles based artist Mike Kelley The work of artist Mike Kelley b 1954 embraces performance installation drawing painting video and sculpture Drawing distinctively on high art and vernacular traditions including historical research popular culture and psychology Kelley came to prominence in the 1980s with a series of sculptures composed of craft materials His recent work offers dialogues with architecture and with repressed memory syndrome and a sustained inquiry into his own aesthetic and social history The subjects on which Kelley has written are as varied as his artistic media They include the work of fellow artists sound caricature the uncanny UFOlogy and gender bending This book offers a diverse collection of Kelley s writings from the last twenty five years It contains major critical texts on art film and the wider culture including his piece on the aesthetic he calls urban Gothic It also contains essays mostly commissioned for exhibition catalogs and journals on the artists and groups David Askevold yvind Fahlstr m Douglas Huebler John Miller Survival Research Laboratories and Paul Thek among others Kelley s voices are passionate analytic and ironic and his critical intelligence is leavened with touches of whimsy

**Vehicles** David Lipset, Richard Handler, 2014-08-01 Metaphor as an act of human fancy combines ideas in improbable ways to sharpen meanings of life and experience Theoretically this arises from an association between a sign for example a cattle car and its referent the Holocaust These sign vehicles serve as modes of semiotic transportation through conceptual space Likewise on the ground vehicles can be rich metaphors for the moral imagination Following on this insight *Vehicles* presents a collection of ethnographic essays on the metaphoric significance of vehicles in different cultures Analyses include canoes in Papua New Guinea pedestrians and airplanes in North America lowriders among Mexican Americans and cars in contemporary China Japan and Eastern Europe as well as among African Americans in the South Vehicles not only carry people around but also carry how they are understood in relation to the dynamics of culture politics and history

*The Persistence of Technology* Stefan Krebs, Heike Weber, 2021-09-03 Repair reuse and disposal are closely interlinked phenomena related to the service lives and persistence of technologies When technical artefacts become old and worn out decisions have to be taken is it necessary worthwhile or even possible to maintain and repair reuse or dismantle them or must they be discarded These decisions depend on factors such as the availability of second hand markets repair infrastructures and dismantling or disposal facilities In telling the stories of China s power grid Canadian telephones German automobiles and India s shipbreaking business among others the contributions in this volume highlight the persistence of technologies and show that maintenance and repair are not obsolete in modern industries and consumer societies
