Alexopoulos, 2022-04-13 This book examines the geostrategic alliances in the Eastern Mediterranean and MENA regions It analyzes how these alliances transcend stereotyped political and cultural prototypes throughout western Eurasia as the outcome of shifting regional power balances The authors explain how this development has its foundation mostly in the United States Pivot to Asia policy resulting in a lower priority ranking of the Middle East for Washington but also in the emergence of China s economic incursion on the wider region The book looks into and presents different reasons for this paradigm shift First and foremost the historical ambitions and conflicting assertions of sovereignty in the region Then competition over control of hydrocarbons reserves and pipeline politics civil wars and political chaos in certain littoral states US retrenchment and Russia s naval base expansion in Syria as well as Turkish expansion in Libya NATO allies divisions and not to reckon with waves of migration and refugees Yet some internal and external factors could

lead to some changes in these trends including the need to engage in energy transitions due to climate change consequences in the region Therefore this book is a must read for scholars students policy makers and practitioners interested in a better understanding of the political development in the Eastern Mediterranean and MENA regions as well as of International Relations in general *Israel's Mediterranean Gas* Sujata Ashwarya,2019-05-03 This book examines the internal and external implications of Israel s natural gas discoveries in the Eastern Mediterranean The nation s changed status from being an importer of coal and oil to that of an exporter of natural gas has consequences not only for the energy sector but also for the fragile geopolitics of the region The book Explores the challenges and issues of energy economics and governance Analyses Israel s gas diplomacy with its neighbours in the Middle East and North Africa and its potential positive impact on the amelioration of the Arab Israeli conflict Studies how Israel can avoid the deleterious impact of the Dutch disease once the government s share of the export revenues start flowing The author traces a consummate picture of history politics and conflicts that shape the economics of energy in Israel and its future trajectories A major intervention in Middle East studies this volume will be of great interest to scholars and researchers of energy studies development studies strategic studies politics diplomacy and international relations It will also be of interest to government agencies think tanks and risk management firms **Cyprus To-day** ,2006 **Catalogue of the Terracottas in the Department of Greek and Roman Antiquities, British Museum** Henry Beauchamp Walters,British Museum.
