*The Dao of Muhammad* Zvi Ben-Dor Benite, 2020-05-11 This book documents an Islamic Confucian school of scholarship that flourished mostly in the Yangzi Delta in the seventeenth and eighteenth centuries Drawing on previously unstudied materials it reconstructs the network of Muslim scholars responsible for the creation and circulation of a large corpus of Chinese Islamic written material the so called Han Kitab Against the backdrop of the rise of the Manchu Qing dynasty The Dao of Muhammad shows how the creation of this corpus and of the scholarly network that supported it arose in a context of intense dialogue between Muslim scholars their Confucian social context and China s imperial rulers Overturning the idea that participation in Confucian culture necessitated the obliteration of all other identities this book offers insight into the world of a group of scholars who felt that their study of the Islamic classics constituted a rightful school within the Confucian intellectual landscape These men were not the first Muslims to master the Chinese Classics But they were the first to express themselves specifically as Chinese Muslims and to generate foundation myths that made sense of their place both within Islam and within Chinese culture *The Dao of Muhammad* ,2001 **The "Dao of Muhammad"** Tsevi Ben-Dor,2000

**The "Dao of Muhammad"** ,2001 **The Scaffolding of Sovereignty** Zvi Ben-Dor Benite,Stefanos Geroulanos,Nicole Jerr,2017-06-13 What is sovereignty Often taken for granted or seen as the ideology of European states vying for supremacy and conquest the concept of sovereignty remains underexamined both in the history of its practices and in its aesthetic and intellectual underpinnings Using global intellectual history as a bridge between approaches periods and areas The Scaffolding of Sovereignty deploys a comparative and theoretically rich conception of sovereignty to reconsider the different schemes on which it has been based or renewed the public stages on which it is erected or destroyed and the images and ideas on which it rests The essays in *The Scaffolding of Sovereignty* reveal that sovereignty has always been supported complemented and enforced by a complex aesthetic and intellectual scaffolding This collection takes a multidisciplinary approach to investigating the concept on a global scale ranging from an account of a Manchu emperor building a mosque to a discussion of the continuing power of Lenin s corpse from an analysis of the death of kings in classical Greek tragedy to an exploration of the imagery of the people in the Age of Revolutions Across seventeen chapters that closely study specific historical regimes and conflicts the book s contributors examine intersections of authority power theatricality science and medicine jurisdiction rulership human rights scholarship religious and popular ideas and international legal thought that support or undermine different instances of sovereign power and its representations *The American Journal of Islamic Social Sciences* ,2006 *Liu Zhi's Journey Through Ritual Law to Allah's Chinese Name* James D.
