## Dark Stuff:

**The Dark Stuff** Donald S. Murray, 2018-04-05 An evocative social history of Europe's peatlands moors bogs and heaths Donald S Murray spent much of his childhood either playing or working on the moor chasing sheep across empty acres and cutting and gathering peat for fuel The Dark Stuff is an examination of how this landscape affected him and others Donald explores his early life on the Isle of Lewis together with the experiences of those who lived near moors much further afield from the Highlands and Islands of Scotland to the Netherlands Germany Ireland and even Australia Examining this environment in all its roles and guises Donald reflects on the ways that for centuries humans have represented the moor in literature art and folktale and he reveals how in some countries these habitats remain an essential aspect of their industrial heritage and working life today On his journey Donald confronts the unexpected how Europe's peatlands are part of the dark heart of that continent playing a crucial role in the history of crime and punishment in several countries He also examines our current perception of moorland asking how for the sake perhaps of our planet's survival we can learn to love a landscape we have all too often in our history denigrated feared and despised Annual Report Geological and Natural History Survey of Canada, 1887

In-KO-8 Edward J. Fisher, 2014-10-22 Lands of In Ko 8 Trilogy The planet Earth enveloped Inchoate a dark matter world at the birth of the solar system Each evolved separately but not independently The civilizations of Inchoate flourished until a disaster flung the world to the Sirius star system where it remained for a millennium Scientists finally restored Inchoate to its rightful place in the galaxy but the resulting damage chaos and greed led to conflict confusion and wars A few brave leaders of the blue green and gray people almost brought order when a totally unexpected visit by star wanderers intervened A review by Kirkus Discoveries Fisher's complex story of faith political schemes death and science brings characters new and old into the fray and further explores characters in the strange world of Inchoate The world of Inchoate is on the brink of disaster leading scientists to return the dark matter planet to its former haunt within the planet Earth The task is made possible via the ingenious travelink a device that allows near light transport from one part of the universe to the other The planet's inhabitants are no sooner settled in to their old home however before unearthing a finding of great political and religious significance one that threatens to shake the planet to its core Fisher's keen grasp of science helps create a believable full bodied civilization The lands and characters resemble an odd marriage of J R R Tolkien's Lord of the Rings saga and the more recent Dune novels The author's descriptions of the various languages of Inchoate and the background of various civilizations are reminiscent of Tolkien's seminal work His characters range from religious leaders to criminals and like the Dune characters each gets print time in this tale Inchoate is a land with a varied rich history culled from seemingly real life examples The author's sharp attention to detail in elements from language to food brings an original sense of realism to the tale sometimes it appears more of history book than fiction A condensed fast paced story whose entertaining intensity will eventually sweep readers away **Memoir**, 1915 Annual Report Geological Survey of
