Dark Interpreter The Discourse Of Romanticism:

Dark Interpreter Tilottama Rajan, 1980 **Dark Interpreter** Tilottama Rajan, 1980 Dark interpreter Tilottama Rajan, 1981 Romanticism, History, and the Possibilities of Genre Tilottama Rajan, Julia M. Wright, 1998-02-13 Romanticism has often been associated with the mode of lyric or otherwise confined within mainstream genres As a result we have neglected the sheer diversity and generic hybridity of a literature that ranged from the Gothic novel to the national tale from monthly periodicals to fictionalized autobiography In this volume leading scholars of the period explore the ways in which the Romantics developed genre from a taxonomical given into a cultural category so as to make it the scene of an ongoing struggle between fixed norms and new initiatives Focusing on non canonical writers such as Thelwall Godwin and the novelists of the 1790s or placing authors such as Wordsworth and Byron in a non canonical context these essays explore the psychic and social politics of genre from a variety of theoretical perspectives while the introduction looks at how genre itself was rethought by Romantic criticism The Supplement of Reading Tilottama Rajan, 2018-03-15 Tilottama Rajan illuminates a crisis of representation within romanticism evident in the proliferation of stylistically and structurally unsettled literary texts that resist interpretation in terms of a unified meaning The Supplement of Reading investigates the role of the reader both in romantic literary texts and in the hermeneutic theory that has responded to and generated such texts Rajan considers how selected works by Coleridge Wordsworth Blake Shelley Godwin and Wollstonecraft explore the problem of understanding in relation to interpretive difference including the differences produced by gender class and history

Romanticism: Romanticism, belief, and philosophy Michael O'Neill, Mark Sandy, 2006 The Broadview Anthology of Literature of the Revolutionary Period 1770-1832, 2010 **The Broadview Anthology of Literature of the Revolutionary Period 1770-1832** D.L. Macdonald, Anne McWhir, 2010-03-04 The selections from 132 authors in this anthology represent gender social class and racial and national origin as inclusively as possible providing both greater context for canonical works and a sense of the era s richness and diversity In terms of genre poetry non fiction prose philosophy educational writing and prose fiction are included Geographically America Canada Australia India and Africa are represented along with Britain emphasizing Romantic literature as a world literature Biographical headnotes explanatory footnotes and an extensive bibliography clarify and illuminate the texts for readers The Romantic Dream Douglas B. Wilson, 1993-01-01 Although criticism on the medieval and Renaissance dream abounds a strange lacuna exists in the critical literature of dream in the English Romantics Every major Romantic poet relied frequently and explicitly on dream imagery and Romantic poems conduct a long discussion about the meaning power value and provenance of dreams Douglas B Wilson s book traces the wide web of connections that the Romantics wove between dreams and other expressions of consciousness sensation emotions illusions creativity personality and memory Situating his study of the Wordsworthian dream between ancient interpretation and Freudian interpretation Wilson gains a new perspective on the oneiric moment of Romanticism

while liberating it from a narrowly psychoanalytic reading Wordsworth embodies virtually all of the dream theory of his time thus making him the perfect object of Wilson's multiple approaches to dream activity as poetic creation Back cover

Shelley Michael O'Neill, 2014-09-19 Attacked by T S Eliot and F R Leavis Shelley's poetry has over the last few decades enjoyed a revival of critical interest His radical politics and arrestingly original poetic strategies have been studied from a variety of perspectives formalist deconstructionist new historicist feminist and others Of all the Romantics Shelly has benefited most from the so called theoretical revolution as is borne out by the wide range of recent critical work represented in this volume The 134 essays selected analyse many of Shelley's finest poems including Alastor Julian and Maddalo Prometheus Unbound Adonais and The Triumph of Life Michael O'Neill's informed Introduction explores the contours of this debate Detailed headnotes to the individual essays explanations of difficult terms and a further reading section provide invaluable guides to the reader This collection illuminates the enduring and contemporary significance of the work of a major poet

The Art of the Critic: Early romantics Harold Bloom, 1988 **Complementary Modes of Representation in Keats, Novalis, and Shelley** Irena Nikolova, 2001 This book explores the crisis of Romantic representation by regarding the literary text not only as a figuration of what lies beyond it but by also considering how its figures are involved in more complex interactions among inner visions textual representations and their subsequent interpretations This approach to the problem of representation aims at redefining the indeterminacies of the Romantic text by analyzing it in terms of the Romantic process of becoming of its self revisions and self interpretations Instead of locating differential structures within the text that denote the impossibility of reconciling conception and expression this book seeks to reconstruct the text as a totality by suggesting that its different modes of representation do not contradict but complement each other The construction of the paradigm of complementarity based on German Romantic aesthetics and German and English Romantic literature is positioned as an alternative to the approaches of deconstruction

Romanticism and Modernity Thomas Pfau, Robert Mitchell, 2014-07-16 Though traditionally defined as a relatively brief time period typically the half century of 1780-1830 the Romantic era constitutes a crucial indeed unique transitional phase in what has come to be called modernity for it was during these fifty years that myriad disciplinary aesthetic economic and political changes long in the making accelerated dramatically Due in part to the increased velocity of change though most of modernity's essential master tropes such as secularization instrumental reason individual rights economic self interest emancipation system institution nation empire utopia and life were also subjected to incisive critical and methodological reflection and reevaluation The chapters in this collection argue that Romanticism's marked ambivalence and resistance to decisive conceptualization arises precisely from the fact that Romantic authors simultaneously extended the project of European modernity while offering Romantic concepts as means for a sustained critical reflection on that very process Focusing especially on the topics of form both literary and organic secularization and its political correlates utopia and apocalypse and the question of how one narrates the

arrival of modernity this collection collectively emphasizes the importance of understanding modernity through the lens of Romanticism rather than simply understanding Romanticism as part of modernity This book was previously published as a special issue of *European Romantic Review*

Shelley's Ambivalence Christine Gallant, 1989-11-02 A study of Shelley's poetry approaching it from the viewpoint of contemporary Jungian analytical psychology that incorporates the theories of Melanie Klein and D W Winnicott Material that relates to the earliest stages of the ego's development to the pre-Oedipal situation are used

Romanticism and the Self-conscious Poem Michael O'Neill, 1997 In this wide-ranging study Michael O'Neill examines the phenomenon of the self-conscious poem that is a poem concerned with poetry or more centrally if often connectedly a poem that displays awareness of itself as a poem in the work of the major Romantic poets Blake Wordsworth Coleridge Byron Shelley and Keats The book freshly illuminates many famous lyrics and longer poems and revalues less regarded works such as *The Excursion* For O'Neill self-consciousness is allied to the new status granted to poetry by the Romantics His closely attentive readings suggest that self-consciousness in Romantic poetry often accompanies exploration of even anxiety about poetry's significance Yet his emphasis falls on the imaginatively productive ends to which such exploration and anxiety are put An extended coda looks at the bequest of Romantic self-consciousness to post-Romantic writers it offers chapters comparing Yeats and Stevens discussing later Auden's scepticism about poetry and exploring the affecting intricacies of Amy Clampitt's *Voyages* A Homage to John Keats Throughout O'Neill challenges recent accounts of Romanticism by placing at the centre of his study poetry's imaginative and aesthetic value

The Art of the Critic: Later romantics Harold Bloom, 1988

Rhetoric and Subjectivity Thomas Pfau, 1989

William Blake, 1997 The six essays in this volume represent a range of approaches to Blake's unique achievement including technical assessment of his printing methods contextualization of his political ideas and theoretical treatments of his use of language They represent the range of approaches now at the forefront of Blake criticism The Huntington's copy of *Visions of the Daughters of Albion* is reproduced in full and in color

Unnatural, Unsexed, Undead Adriana Craciun, 1996

Romantic Psychoanalysis Joel Faflak, 2009-01-08 In this provocative work Joel Faflak argues that Romanticism particularly British Romantic poetry invents psychoanalysis in advance of Freud The Romantic period has long been treated as a time of incipient psychological exploration anticipating more sophisticated discoveries in the science of the mind Romantic Psychoanalysis challenges this assumption by treating psychoanalysis in the Romantic period as a discovery unto itself a way of taking Freud back to his future Reading Romantic literature against eighteenth and nineteenth century philosophy Faflak contends that Romantic poetry and prose including works by Coleridge De Quincey Keats and Wordsworth remind a later psychoanalysis of its fundamental matrix in phantasy and thus of its profoundly literary nature
