Darlan Myth And Reality:

Darlan George Melton, 1998-05-26 Admiral Jean Fran ois Darlan s Western legacy is that of an opportunist a fascist collaborator or at worst a traitor during France s struggle for survival in the early years of World War II This study however based upon new research from French English and German archival sources paints a different picture With a career beginning during the height of France s imperial power and lasting until the nation s rapid wartime decline Darlan was a pragmatic statesman a guardian of naval preparedness a stout opponent of fascism an earnest patron of the Anglo French Alliance and an advocate of combined naval power in the Mediterranean He defended French naval and colonial interests against all foreign powers before and during the war and his success in this area eventually resulted in his assassination Darlan s career was characterized by his loyal service to his government and nation One of the first to recognize the German threat he openly favored naval rearmament in the early 1930s He was also instrumental in the success of the 1937 Nyon Conference on Mediterranean security which was the only prewar military effort against fascist aggression During the occupation Darlan pursued diplomacy to ease the burdens of the French people Yet these very negotiations with the Germans along with his bitter reaction to Britain s surprise attack against the French fleet at Mers el K ebir would result in his reputation as an opportunist and a collaborator with the fascists This examination of the man whose murder would ease the way for Charles de Gaulle will captivate anyone interested in the political intrigues of World War II **Myth and Reality in German War-time Broadcasts** Ernst Hans Gombrich, 1970 Myths, Amnesia and Reality in Military Conflicts, 1935-1945 Pier Paolo Battistelli, Andrew Sangster, 2017-01-06 Stalin fabricated the myth that the Germans carried out the Katy massacre and the West accepted it while always suspecting the reality In the same way each country tried to forget the more painful memories of its past and construct its own mythology The Germans were never taken to task at Nuremberg for bombing because the Anglo Americans virtually carried out a war of annihilation The French Gaullist myth was that it was decadent politicians who caused the defeat and that fighting France freed itself In a similar vein the Italian resistance was fostered as a myth and used postwar to cover the fascist period of their history British and American popular history tends to portray their countries as the main victors often ignoring the massive Russian contribution and generally concentrates on the barbarity of the Eastern war Much is forgotten and much enhanced both incidents and leaders The Italian military historian of this book writes in depth about the Italian war so often ignored in western history and tackles the myth of Italian cowardice while the British author takes a cold calculated look at Anglo American leaders such as Montgomery Mountbatten Clark Patton and questions the myth of the special relationship between Great Britain and the USA as well as the official and unofficial amnesia relating to self inflicted gas wounds in Italy **Bookseller** , 1998 **The Hinge of Fate** Winston S. Miller, Mark

Molesky,2007-12-18 Libert Egalit Fraternit Or just plain gall In this provocative and brilliantly researched history of how the French have dealt with the United States John J Miller and Mark Molesky demonstrate that the cherished idea of French friendship has little basis in reality Despite the myth of the sister republics the French have always been our rivals and have harmed and obstructed our interests more often than not This history of French hostility goes back to 1704 when a group of French and Indians massacred American settlers in Deerfield Massachusetts The authors also debunk the myth of French aid during the Revolution contrary to popular notions the French did not enter the war until very late and were mainly interested in hurting their rivals the British After the war the French continued to see themselves as major players in the Western hemisphere and shaped their policies to limit the growth and power of the new nation The notorious XYZ affair involving French efforts to undermine the government of George Washington led to an undeclared naval war with France in 1798 During the Civil War the French supported the Confederacy and installed a puppet emperor in Mexico In the twentieth century Americans clashed with the French repeatedly The French victory over President Wilson at Versailles imposed a short sighted and punitive settlement on Germany that paved the way for the rise of fascism in the 1930s During World War II Vichy French troops killed hundreds of American soldiers in North Africa and diehard French fascist units fought against the Allies in the rubble of Berlin During the Cold War Charles DeGaulle yanked France out of NATO and obstructed our efforts to roll back Soviet expansion The legacy of French imperial power has been no less disastrous The French left Haiti in a shambles got us into Vietnam and educated many of the world s worst tyrants at their elite universities including Pol Pot the genocidal Cambodian dictator The fascist Baath regimes in Iraq and Syria are another legacy of failed French colonialism Americans have been particularly irritated by French cultural arrogance their crusades against American movies McDonalds Disney and the exclusion of American words from their language have always rubbed us the wrong way This irritation has now blossomed into outrage Our Oldest Enemy shows why that outrage is justified **Fourth International** ,1968 **The Second World War: The hinge of fate** Winston Churchill,1951 *International Socialist Review* ,1968 **The Axis and the Arab Middle East, 1930-1945** Robert Lewis Melka,1966 *French Settler Politics During the Algerian War, 1954-1958* Stuart Hope Van Dyke,1980 [The French at War, 1934-1944](#) Nicholas Atkin,2014-07-22 The years 1934 to 1944 remain the most contentious and dramatic decade in modern French history Covering the Occupation the Vichy regime the Resistance and collaboration Nick Atkin provides an important introduction to this key period Accessible and concise the book offers a wide ranging synthesis of key themes and events Looking ahead to the present day the book also examines how the French establishment and public have coped with the legacy of Vichy and explains why the occupation is still ever present in French politics and everyday life **Mussolini Warlord** H.
