Darwin Conspiracy:

The Darwin Conspiracy John Darnton, 2006-09-12 From the author of the bestselling Neanderthal comes this novel of gripping suspense and scientific conquest a page turning historical mystery that brilliantly explores the intrigue behind Darwin and his theory of evolution It s 1831 and aboard HMS Beagle the young Charles Darwin sets off down the English Channel for South America More than 150 years later two ambitious scholars pursuing their obsession with Darwin and with each other come across the diaries and letters of Darwin s daughter What they discover is a maze of violent rivalries petty deceptions and jealously guarded secrets and the extraordinary story of an expedition embarked upon by two men Only one returned and changed history forever

Science Fraud: Darwin's Plagiarism of Patrick Matthew's Theory Mike Sutton, 2023 Patrick Matthew in 1831 originated the complete theory of evolution by natural selection in his book On Naval Timber and Arboriculture and did so before Charles Darwin and Alfred Wallace claimed to independently replicate it in 1858 Unjustly and against the Arago convention on priority a ruling that gives origination of any science theory to the first to publish Matthew has been illicitly denied his priority on the grounds he never influenced anyone with his breakthrough Today Big Data research has uncovered Darwin s science fraud by plagiarism revealing evidence which proves beyond all reasonable doubt that he and Alfred Wallace both independently plagiarised the theory of evolution by natural selection from Patrick Matthew Books have been newly unearthed in the publication record to show that at least 30 people cited Matthew s work in published literature before 1858 and that several were known influencers of Darwin s and Wallace s work in the field Additionally several people in Darwin s and Wallace s social circles were first to be second into print using original terms coined by Matthew in his bombshell breakthrough book This book reveals all the newly unearthed data and essentially explains it alongside the deplorable treatment of Patrick Matthew in scholarly historical context Dr Mike Sutton further reveals using social science participatory observation methods and experimental results how members of the so called Darwin Industry enabled and facilitated by the deliberate publication of falsehoods and other grossly misleading editing on Wikipedia have disgracefully worked to re bury these newly unearthed facts by means of knee jerk blind sight ignorant rejection blatant and deliberate fact denial censorship persistent and serious workplace harassment obscene social media abuse poison pen emails lies mischievous misrepresentation and repeat research plagiarism

World History and the Eonic Effect John C. Landon, 2010-04-27 At a time when theories of evolution are undergoing renewed controversy the study of the Eonic Effect can break the deadlock by looking at world history in the light of evolution The assumption that evolution occurs at random is the crux of the dispute and one confused with issues of religion and secularism We can detect a non random pattern in the record of civilization itself to see evolution in action on a stupendous scale We live in the first generations with enough data

to detect this phenomenon In the confusion of evolutionary theories the unexpected discovery of deep level structure can allow us to deconstruct fl at history and assess claims of directionality in evolution In the process the theory of natural selection applied to human evolution is seen to fail a photo finish test The book provides a new model for the study of the overlap of history and evolution and a critique of current views of the descent of man **Force of Nature** Sajal Nag,2017-08-07 The study of environmental history is no more only of forests rivers but also of agriculture climate economic practices and human culture In recent times environmental studies as a discipline has come to the forefront with growing concerns over the ozone layer depletion but has led to investigation of the historical factors and processes of man and environment relationship and its impact Very little was earlier known about the devastative impact on the environment of imperialism state capitalism of post colonial nations and the liberalization and globalization of these economies There is no aspect of the environment which has not felt the impact of such developmental human process Rivers have thus either dried up or are polluted with highly toxic materials seas and oceans have become the dumping ground of nuclear and other wastes streams are blocked rains reduced forest covers depleted wildlife has dwindled concrete jungles have replaced green fields and natural water bodies desertification of landscapes has happened It has had its own impact on human life as well Droughts floods dust storms landslides water shortage agricultural decline and food crisis starvation and epidemics followed The planet earth and its inhabitants are currently in the throes of the most devastating man made crisis for survival In an attempt to enhance our understanding of the environmental crisis the present collection has essays investigating wide ranging events ranging from understanding climate from logbook of East India Company to the construction of Himalayan tropics environmental cost of damming the Damodar River to water politics of south India impact of Tsunami of the years 1737 as well as of 2004 5 politics over earthquake rehabilitation to the Sarna movements of eastern Indian tribals

Neo-Victorian Literature and Culture Nadine Boehm-Schnitker,Susanne Gruss,2014-06-05 This book provides a comprehensive reflection of the processes of canonization un pleasurable consumption and the emerging predominance of topics and theoretical concerns in neo Victorianism The repetitions and reiterations of the Victorian in contemporary culture document an unbroken fascination with the histories technologies and achievements as well as the injustices and atrocities of the nineteenth century They also reveal that in many ways contemporary identities are constructed through a Victorian mirror image fabricated by the desires imaginings and critical interests of the present Providing analyses of current negotiations of nineteenth century texts discourses and traumas this volume explores the contemporary commodification and nostalgic recreation of the past It brings together critical perspectives of experts in the fields of Victorian literature and culture contemporary literature and neo Victorianism with contributions by leading scholars in the field including Rosario Arias Cora Kaplan Elizabeth Ho Marie Luise Kohlke and Sally Shuttleworth Neo Victorian Literature and Culture interrogates current fashions in neo Victorianism and their ideological leanings the resurrection of cultural icons and the reasons behind
