Albrecht Classen

Das Frauenbuch:

Das Frauenbuch, 1913 **Das Frauenbuch** Ulrich (von Lichtenstein), 2003 **Constructing Virtue and Vice** Olga V. Trokhimenko, 2014

The study examines textual representations of women's laughter and smiling and their imagined connection to female virtue in a wide variety of discourses and contexts of the German Middle Ages including medieval epic ecclesiastical texts conduct literature lyric and sculpture By engaging with the competing and at times contradictory views of female laughter it reaffirms a disputatious nature of medieval culture in which multiple views of femininity sexuality and virtue stood in a conflicting yet productive dialogue with one another The society that emerges when one looks at medieval German texts is always ambivalent it thrives on and enjoys talking about sensuality and eroticism while being constrained by the conventions of polite behavior and the fear of sin it relies on the ritual use of laughter while marking it as a sign of lust and perdition Women's laughter thus offers an important way into understanding medieval views of gender because it combines physicality with shifting and conflicting cultural norms

Laughter in the Middle Ages and Early Modern Times Albrecht Classen, 2010-09-22

Despite popular opinions of the dark Middle Ages and a gloomy early modern age many people laughed smiled giggled chuckled entertained and ridiculed each other This volume demonstrates how important laughter had been at times and how diverse the situations proved to be in which people laughed and this from late antiquity to the eighteenth century The contributions examine a wide gamut of significant cases of laughter in literary texts historical documents and art works where laughter determined the relationship among people In fact laughter emerges as a kaleidoscopic phenomenon reflecting divine joy bitter hatred and contempt satirical perspectives and parodic intentions In some examples protagonists laughed out of sheer happiness and delight in others because they felt anxiety and insecurity It is much more difficult to detect premodern sculptures of laughing figures but they also existed Laughter reflected a variety of concerns interests and intentions and the collective approach in this volume to laughter in the past opens many new windows to the history of mentality social and religious conditions gender relationships and power structures
