## Duchamp Cameo:

**Duchamp Cameo** Jose Maria Faerna,1996-09-01 Duchamp's art illustrates his conviction that painting as it had been previously understood was mere representation it was Duchamp's goal to turn painting into a purely intellectual tool to make art that was in his words aesthetically anaesthetized

**Merce Cunningham** Carrie Noland,2020-01-23 One of the most influential choreographers of the twentieth century Merce Cunningham is known for introducing chance to dance Far too often however accounts of Cunningham's work have neglected its full scope focusing on his collaborations with the visionary composer John Cage or insisting that randomness was the singular goal of his choreography In this book the first dedicated to the complete arc of Cunningham's career Carrie Noland brings new insight to this transformative artist's philosophy and work providing a fresh perspective on his artistic process while exploring aspects of his choreographic practice never studied before Examining a rich and previously unseen archive that includes photographs film footage and unpublished writing by Cunningham Noland counters prior understandings of Cunningham's influential embrace of the unintended demonstrating that Cunningham in fact set limits on the role chance played in his dances Drawing on Cunningham's written and performed work Noland reveals that Cunningham introduced variables before the chance procedure was applied and later shaped and modified the chance results Chapters explore his relation not only to Cage but also Marcel Duchamp Robert Rauschenberg James Joyce and Bill T Jones Ultimately Noland shows that Cunningham approached movement as more than movement in itself and that his work enacted archetypal human dramas This remarkable book will forever change our appreciation of the choreographer's work and legacy

Duchamp, Man Ray, Picabia Jennifer Mundy,2008-03 For the first time the friendships that existed between this triumvirate are examined in depth revealing the way their mutual admiration inspired and sustained their creative output at different stages during their careers All three were fascinated with new technologies that evolved during their lifetimes including photography film mechanisation and mass production All three lampooned the pretensions of high art employing humour eroticism and word play to great effect Back cover
