Master Paintings from the Phillips Collection Phillips Collection, Eliza E. Rathbone, Susan Behrends Frank, Robert Hughes, 2011 The Phillips Collection America's first museum of modern art was founded in 1921 by Duncan Phillips 1886-1966 a Washington DC collector who played a vital role in introducing America to contemporary art Unusually for his time Phillips saw American artists as fully equal to their European counterparts often hanging their works side by side Moreover Phillips chose to buy and exhibit works according to stylistic continuities and affinities reflecting the visual connections between various artistic expressions past and present Master Paintings from The Phillips Collection highlights 108 masterworks from the Phillips's permanent collection and offers insight into the creation of one of the greatest private collections of modern art in the world Book Description [Avery, Gottlieb & Rothko](#) Eliza Rathbone, 2026-03-24 A stunning volume illuminating the artistic exchange between three seminal American artists Milton Avery Adolph Gottlieb and Mark Rothko This groundbreaking book underscores the lasting significance of the summers they spent together by the sea in Gloucester Massachusetts in the 1930s and 1940s Milton Avery a modernist painter at work in the first half of the twentieth century is rarely linked to Adolph Gottlieb or Mark Rothko who were twenty years younger and would become associated with the New York School in the 1950s While Avery consistently drew inspiration from the visible world Gottlieb and Rothko invented abstract pictorial languages all their own Despite these differences they were a tight knit trio whose camaraderie and mutual love of the ocean had lasting impact on their work This pioneering volume traces their friendship from 1932 when they first summered together on Cape Ann through the crystallization of their ideas in the 1940s to the deeply centering decades that followed when all three created the mature independent painting styles for which they are best known This late work each in its own way is indebted to the time the artists spent together on the rocky coast and sandy beaches of Cape Ann Contributions by leading scholars and family members enrich this unique exploration of artistic friendship and its bearing on the work of three of the twentieth century's most celebrated artists

Modern Art on Display K. Porter Aichele, 2016-05-19 Modern Art on Display The Legacies of Six Collectors is structured as a sequence of case studies that pair collectors of modern art with artists they particularly favored Duncan Phillips and Augustus Vincent Tack Albert Barnes and Chaim Soutine Albert Eugene Gallatin and Juan Gris Lillie Bliss and Paul C. Zanne Etta Cone and Henri Matisse G. David Thompson and Paul Klee The case studies are linked by a thematic focus on the integral relationship between the collectors' acquired knowledge about the work they amassed and their innovative display models This focus brings a new perspective to the history of collecting and interpreting modern art in America for nearly half a century 1915-1960 By examining the books the collectors themselves read and analyzing archival photographs of their displays the author makes a case for the historical significance of how the collectors presented the art they acquired before their collections were institutionalized
