The Sound of Things to Come Trace Reddell,2018-10-16 A groundbreaking approach to sound in sci fi films offers new ways of construing both sonic innovation and science fiction cinema Including original readings of classics like *The Day the Earth Stood Still* 2001 *A Space Odyssey* *Star Wars* and *Blade Runner* *The Sound of Things to Come* delivers a comprehensive history of sound in science fiction cinema Approaching movies as sound objects that combine cinematic apparatus and consciousness Trace Reddell presents a new theory of sonic innovation in the science fiction film Reddell assembles a staggering array of movies from sixty years of film history including classics blockbusters B movies and documentaries from the United States Britain France Germany Japan and the Soviet Union all in service to his powerful conception of sound making as a speculative activity in its own right Reddell recasts debates about noise and music while arguing that sound in the science fiction film provides a medium for alien unknown and posthuman sound objects that transform what and how we hear Avoiding genre criticism s tendency to obsess over utopias *The Sound of Things to Come* draws on film theory sound studies and philosophies of technology to advance conversations about the avant garde while also opening up opportunities to examine cinematic sounds beyond the screen

The Euro-Western Lee Broughton,2016-06-22 The Western has always been inextricably linked to the USA and studies have continually sought to connect its historical development to changes in American society and Hollywood innovations Focusing new critical attention on films produced in Germany Italy and Britain this timely book offers a radical rereading of the evolutionary history of the Western and brings a vital international dimension to its study Lee Broughton argues not only that European films possess a special significance in terms of the genre s global development but also that many offered groundbreaking and progressive representations of traditional Wild West Others Native Americans African Americans and so called strong women European Westerns investigates how the histories of Germany Italy and Britain and the idiosyncrasies of their respective national film industries influenced representations of the self and Other shedding light on the broader cultural historical and political contexts that shaped European engagement with the genre

The Noir Western David Meuel,2015-01-28 Beginning in the mid 1940s the bleak brooding mood of film noir began seeping into that most optimistic of film genres the western Story lines took on a darker tone and western films adopted classic noir elements of moral ambiguity complex anti heroes and explicit violence The noir western helped set the standard for the darker science fiction action and superhero films of today as well as for acclaimed TV series such as HBO s *Deadwood* and AMC s *Breaking Bad* This book covers the stylistic shift in westerns in mid 20th century Hollywood offering close readings of the first noir westerns along with revealing portraits of the eccentric and talented directors who brought the films to life

The Gothic Peckinpah Tony Williams,2024-05-03 This book argues for the importance of Gothic in understanding one of the key elements

within the films of Sam Peckinpah 1925-1984. Although occasionally noted in the past, the Gothic has been generally overlooked when most critics consider the work of Sam Peckinpah, with the exception of the Freudian-based *Crucified Heroes* (1979) by Terence Butler. This work not only examines the films made after that date, especially the often dismissed *The Osterman Weekend* (1983) and the two music videos he made for Julian Lennon, but also places the director within the context of the developing work on Gothic that has since appeared. Peckinpah has been identified as the director of one undisputed masterpiece, *The Wild Bunch* (1969). By focussing on the key role Gothic plays in most of the director's work, this book offers a way to see Peckinpah beyond *The Wild Bunch* and the Western, viewing him as a director who had the potential of evolving further had circumstances permitted to continue his critique of American life within the developing lens of the Gothic.

The New York Times Magazine, 2009 *Video Watchdog*, 2000 **The Rough Guide to Comedy Movies** Bob McCabe, 2005. This guide discusses laughter in the cinema from *Airplane!* to *Withnail and I* and from John Belushi to Billy Wilder. [The Cinema of David Cronenberg](#) Ernest Mathijs, 2008. David Cronenberg has moved from the depths of low budget exploitation horror to become one of North America's most respected movie directors. Since the early 1970s the soft-spoken Baron of Blood has attracted widespread controversies with a steady stream of shocks: sex-crazed parasites in *Shivers* (1975), exploding heads in *Scanners* (1981), revolutionary flesh technology in *Videodrome* (1983), mutating bugs in *The Fly* (1986), car crash scars in *Crash* (1996) and psychopathic bursts of gunfire in *A History of Violence* (2005). This new study provides an overview of Cronenberg's films in the light of their international reception, placing them firmly in the cultures they influenced. It also highlights often ignored works such as the race movie *Fast Company* (1979) and includes a chapter on the latest film *Eastern Promises* (2007). Amidst bans and boos, Cronenberg has developed a consistent cult following for his chronicles of humankind's struggle with its ever-changing environment, bugged by technology and changing social roles, becoming a hero of contemporary culture. **The Holocaust Film Sourcebook: Fiction** Caroline Joan Picart, 2004. A comprehensive filmography listing fictional narrative films in the first volume and documentary and propaganda films in the second. The films listed alphabetically were produced in many different countries. The work lists films made during World War II and after, including Nazi films. Each entry provides bibliographic information, a summary of the story, and a list of primary and secondary sources. Each volume contains a few spotlight essays. Partial contents: *Film Noir Reader 4* Alain Silver, James Ursini, 2004-11. This text identifies a handful of plot elements that consistently recur within film noir and analyses in depth the memorable pictures that while being vivid prototypes of certain cinematic themes, bend and break their moulds to find new ways to enthrall and frighten us. *Time Out Film Guide*, 2007. [Encyclopedia of World Biography](#), 1998. Presents brief biographical sketches which provide vital statistics as well as information on the importance of the person listed.

What Art is Louis Torres, Michelle Marder Kamhi, 2000. The co-editors of the scholarly but gutsy little periodical *Aristos* present and support the less well-known position of philosopher/novelist Rand (1905-82) in debunking what passes for modern
