Dying Planet:

Dying Planet Robert Markley, 2005-09-08 For more than a century Mars has been at the center of debates about humanity's place in the cosmos. Focusing on perceptions of the red planet in scientific works and science fiction, *Dying Planet* analyzes the ways Mars has served as a screen onto which humankind has projected both its hopes for the future and its fears of ecological devastation on Earth. Robert Markley draws on planetary astronomy, the history and cultural study of science fiction, literary and cultural criticism, ecology, and astrobiology to offer a cross-disciplinary investigation of the cultural and scientific dynamics that have kept Mars on front pages since the 1800s. Markley interweaves chapters on science and science fiction, enabling him to illuminate each arena and to explore the ways their concerns overlap and influence one another. He tracks all the major scientific developments from observations through primitive telescopes in the seventeenth century to data returned by the rovers that landed on Mars in 2004. Markley describes how major science fiction writers H.G. Wells, Kim Stanley Robinson, Philip K. Dick, Edgar Rice Burroughs, Ray Bradbury, Robert Heinlein, and Judith Merril responded to new theories and new controversies. He also considers representations of Mars in film, on the radio, and in the popular press. In its comprehensive study of both science and science fiction, *Dying Planet* reveals how changing conceptions of Mars have had crucial consequences for understanding ecology on Earth.

Revive Our Dying Planet Sarala Devi, 1982 **Dying Planet** Jon Erickson, 1991-04 [A Dying Planet Short Stories](#), 2020-07-07 Resources running low, the population exploding, the planet is in danger: are we masters of our own destruction, or have we been invaded by aliens bent on mass extinction? Is this a pattern across the entire universe, or just our small sector of cosmic life? This new title in our successful Gothic Fantasy Short Stories series explores the theme of a dying planet, written by a fabulous mix of classic, ancient, and brand-new writing with contemporary authors from all over the world. For the first time, we've made a conscious effort to reach beyond our usual submissions, seeking broader voices. This book offers a glorious mix of American, British, Canadian, Italian, Indian, Spanish, and Chinese writers, with contributions from Barton Aikman, V.K. Blackwell, Steve Carr, Brandon Crilly, Ana Maria Curtis, Kate Dollarhyde, Megan Dorei, Stephanie Ellis, Anita Ensal, E.E. King, Michael Kortez, Raymond Little, Ken Liu, Thana Niveau, John B. Rosenman, Sydney Rossman, Reich, Elizabeth Rubio, Zach Shephard, Shikhandin, Alex Shvartsman, Kristal Stittle, Rebecca E. Treasure, Francesco Verso, and Marian Womack. These sit alongside classic stories by authors such as Clark Ashton Smith, Stanley G. Weinbaum, H.G. Wells, and more, as well as stretching back much further to the Norse Eddas and Sagas and an Ancient Egyptian Myth on the death of humankind.

The Dying Planet J. Chandler Nash, 2011-08-10 Twenty-five years ago, the causes and consequences of global warming began to concern Science Fiction author J. Chandler Nash. He never imagined that he would live to see the catastrophic results beginning to play out in his lifetime: radical weather, devastating fires of global consequence, food shortages, rapid

planetary deforestation and accelerating rates of extinctions Far greater than any science fiction scenario it is this unimaginable threat largely unaddressed by world governments that prompted him to write *The Dying Planet* Set in the not too distant future a monumental catastrophe looms over planet Earth unknown to its few surviving inhabitants All technology and social order has long since vanished in a world devastated by severe drought and unpredictable killer storms Three isolated groups remnants of a tattered humanity try to make a life for themselves while struggling against lawless predators and a fiercely hostile climate Scout Clayton Smith settles his tiny wandering band by a shrinking lake in the Sierras Tensions mount as they build a new order for themselves until they are suddenly confronted by a threat that would rob them of their resources their freedom and their lives Little by little they pull together to persevere but they are never entirely free of the evil that stalks them A young drifter Vince Corning finally finds his place in a small river community and meets the love of his life the beautiful Carmen Held together by the iron fist of Carmens stepfather Skeeter Jones the community persists in a quest for resources that spares no one Jones who holds a bitter grudge against Corning goes head to head with him in a struggle that lands Vince on the wrong side of the law After losing a horrific battle to defend the last of their black gold two ex roughnecks Gardner Wells and Carter Singleton are reduced to a miserable life as sneak thieves in order to fend off starvation on the parched tundra of the far north Only their wits can save them Against the background of a life and death struggle facing the survivors a saga of love loss and life renewed plays out beyond all odds Will they survive what a global system long forgotten and drastically out of balance has in store for them
